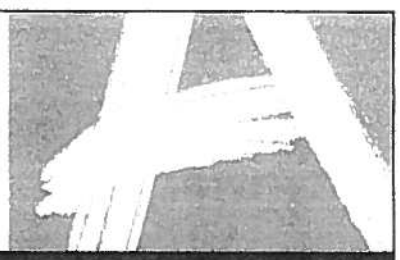
CCRD: Placement NOT Admission



A College and Career Ready Determination on the PARCC assessments indicate:

- **Mastery** of the core competencies in the Common Core State Standards identified by postsecondary education faculty as prerequisites for and key to success in entry-level, credit-bearing courses in English and mathematics
- **Readiness** for placement into entry-level, credit-bearing courses in ELA and mathematics

A College and Career Ready Determination <u>will not</u>:

- **Determine** admission to college or university
- **Replace** college/university tests to place students into **higher level mathematics and English courses**
- **Address** non-traditional students who delay enrollment
