January 31, 2011

Mr. Ray Ferrero, Jr.
Chancellor and Chief Executive Officer
Nova Southeastern University
3301 College Avenue
Fort Lauderdale, FL 33314

Dear Mr. Ferrero:

Thank you for your letter of December 21, 2010, providing notification that the University plans to offer, effective January 2011, the Doctor of Education degree program at a new off campus site.

The location of the new site is as follows:

Board of Cooperative Educational Services
201 East 12th Street
Durango, Colorado 81301

The program will be offered in one of two delivery modes: blended delivery or distance delivery. The blended delivery mode consists of approximately 40% face-to-face classroom instruction and 60% distance instruction. The distance delivery mode consists of 100% distance instruction.

The University is approved to offer 50% or more of the credits in a program via distance education. Only 18 of the 66 required credits will be offered by blended mode with face-to-face instruction at the field-based site. Thus students will not be able to earn 50% or more of the credits through instruction offered at the site itself.

We accept notification of the above site where students will receive instruction on site for 25-49% of the credits required in the program and request no further information.

Best regards,

Belle S. Wheelan
