2010
High School Graduates Enrolling in
Colorado Public Higher Education in
Fall Term 2010

Summary

Following C.R.S. 23-5-127 and beginning in Fall term 2010, the SASID (State Assigned Student Identifier) began being collected in higher education enrollment data. From this point forward, a direct link exists between student history in K-12 and enrollment in public higher education in Colorado. This report summarizes a high school graduating class and their enrollment in higher education. Of the 2010 high school graduates, 46.3% enrolled in a public or reporting private institution in the state. The majority of these students (64.7%) enrolled in a four year public institution. The majority of the students enrolling in higher education were also female (53.0%) and White, non-Hispanic (64.0%).

Source of Data

- Colorado Department of Education (CDE) High School Graduates, Spring 2010 and
- Department of Higher Education (DHE) Fall Term Enrollment, 2010 (SURDS)

Data Limitations

- High school graduate file does not include late graduates, those graduating after May 2010
- Higher education enrollment data collection is limited to public institutions and only a few private institutions. Enrollment in colleges out-of-state or the majority of in-state private, vocational or occupational colleges is not included in this report.
- Student identifiers submitted to higher education data system are matched by the colleges and universities using a matching process on several student characteristics. This matching process yields, on average, a 90 percent match. The remaining percentage would be included in enrollment data, but would not be able to be matched to the high school graduate file.
