

Appendix A

Key Points

- Do financial aid allocations support institutions or students?
- Should financial aid policy be tied to the economy? Do certain groups drop in priority in a recession (e.g. students at proprietary institutions or graduate students)?
- How to factor cost of attendance at an institution in an allocation model with tuition flexibility under SB 10-003
- How to value access and retention in allocations
- Do institutions fit into three tiers?
- How financial aid policy aligns with General Fund appropriations and tuition flexibility
- Concerns Addressed from FY2010-2011 Allocations
 - three years of data
 - rate per FTE
 - proprietary institutions
 - graduate aid
