

Student Record Request Instructions

- How to obtain a student transcript from a closed school

The Division of Private Occupational Schools (DPOS) is responsible for the preservation, storage and management of student records from private occupational schools approved by the Colorado Board of Occupational Schools, Department of Higher Education that have ceased operation. DPOS provides for the release of student transcripts to students that attended closed schools. Not all closed private occupational schools records are maintained by DPOS. DPOS stores some of its closed school records with the Colorado State Archives, the state's custodian of public records.

To obtain student transcripts from a closed school:

1. Attached is a [list of closed schools](#) and information about the location of student transcripts. Student transcripts for closed private occupational schools are available through DPOS or the Colorado State Archives. Please refer to the list of closed schools for the location of your student transcript. If the school you attended appears on the list of closed schools, complete the [Student Transcript Request Form](#) and contact the appropriate agency.
2. If the student transcript is available through *DPOS*, a \$35 fee for one (1) transcript is required to obtain a copy of the student transcript. If an official certified copy of the transcript is to be provided to a school, business, or person to receive the transcript, please provide the contact information on the student transcript request form.
