**Graduate and Other Educational Services**

The General Assembly has found that some services which are offered by institutions of higher education go beyond the scope of undergraduate services and are not part of the College Opportunity Fund stipend program. Instead, the General Assembly has determined that it is in the best interests of the state of Colorado for the Department to purchase these selected educational services for the benefit of students. In accordance with 23-1-109.7 Colorado Revised Statutes (C.R.S.) these services may include, but need not be limited to:

- (a) Educational services in rural areas or communities in which the cost of delivering the educational services is not sustained by the amount received in student tuition;
- (b) to (d) repealed;
- (e) Educational services required of the commission to meet its obligations under reciprocal agreements pursuant to section 23-1-112, C.R.S.;
- (f) Graduate school services;
- (g) Educational services that may increase economic development opportunities in the state, including courses to assist students in career development and retraining; and
- (h) Specialized educational services and professional degrees, including but not limited to the areas of dentistry, medicine, veterinary medicine, nursing, law, forestry, and engineering.

**Specialized Educational Services**

To secure the well being of the State and to enhance and maintain its diversified economy, the Department shall purchase services that will ensure that specialized educational programs are provided. The Specialized Educational services include Anthropology, Exercise Science, Teacher Licensure and Computer Science Information Systems and the physical sciences. Because these programs are very costly to deliver due to low faculty to student ratios, specialized instrumentation requirements and the integration of high end technologies, the Department shall purchase these services on a credit hour basis as identified in the high cost program model, exhibit C-12. The purchase of these services shall be net of the College Opportunity Fund Stipend reimbursement made to the College on behalf of the students enrolled there.

**Reciprocal Agreements**

In accordance with 23-1-113 (1) (b) (I) (B) Colorado Revised Statutes, the Department "shall identify those circumstances where the waiving of the nonresident differential in tuition rates, on a reciprocal basis with other states, would enhance educational opportunities for Colorado residents. The Department shall purchase services from the Institution in order to ensure the availability of these services in accordance with Colorado Commission on Higher Education policy authorizing this service. The purpose for purchasing such services shall be to ensure educational opportunities for Colorado residents in other states in order that they have access to unique programs and offering at institutions outside of Colorado.

During the period of this agreement, the Department will purchase from the Institution the following units of other educational services:

a. The Department shall purchase 11,516 credit hours of specialized educational services at a rate of four hundred, nine dollars (\$409) for a total of four million, seven hundred, ten thousand, and one hundred and fifty nine dollars (\$4,710,159).

b. The Department shall purchase 3,000 credit hours of other educational services for Reciprocal programs at the rate of sixty two dollars (\$62) per credit hour for a total of one hundred, eight six thousand dollars (\$186,000).

In order to ensure that such services are provided in a reasonable and fiscally responsible manner, the Institution shall report annually, through the Student Unit Reporting Data System (SURDS), and the Final Student Enrollment Report, or by other means noticed and established by the Department, on the number of student FTE served and credit hours provided by each category listed in this exhibit. If such reporting shows an amount of credit hours lower than is purchased herein, the Department may audit such services periodically to ensure contract and statutory compliance including, but not necessarily limited to ensuring, that the number of credit hours purchased has been provided.

Nothing in this section shall prevent the Institution from enrolling students above and beyond the units contracted for under Other Educational Services.
