EXHIBIT A-12
STATEMENT OF WORK
Metropolitan State University of Denver

The General Assembly has found that some services which are offered by institutions of higher education go beyond the scope of undergraduate services and are not part of the College Opportunity Fund stipend program. Instead, the General Assembly has determined that it is in the best interests of the state of Colorado for the Department to purchase these selected educational services for the benefit of students. In accordance with 23-1-109.7 Colorado Revised Statutes (C.R.S.) these services may include, but need not be limited to:

- (a) Educational services in rural areas or communities in which the cost of delivering the educational services is not sustained by the amount received in student tuition;
- (b) to (d) repealed;
- (e) Educational services required of the commission to meet its obligations under reciprocal agreements pursuant to section 23-1-112, C.R.S.;
- (f) Graduate school services;
- (g) Educational services that may increase economic development opportunities in the state, including courses to assist students in career development and retraining; and
- (h) Specialized educational services and professional degrees, including but not limited to the areas of dentistry, medicine, veterinary medicine, nursing, law, forestry, and engineering.

Specialized Educational Services and Professional Degrees

The Department has found that certain educational services offered in the Denver metropolitan area are not sustainable from tuition and fee revenue alone. Because such services are needed, the Department shall purchase them as specialized educational services. Services shall include, but are not limited to: technology and laboratory support in Engineering Technology; equipment and laboratory support for Aviation and Aerospace Science; support for clinical education experiences and the development of practice scenarios used for simulation in the Nursing program; and equipment and laboratory support for programs in computing, biological & life, and physical sciences. The Institution shall provide educational support and specialized services to the Department consistent with its statutory role and mission. The Department, on a credit hour cost basis, shall purchase educational support and specialized services as set forth in Exhibit C-12.

Other educational services shall be purchased in accordance with Title 23, Article 1, Section 109.7, Colorado Revised Statutes. Specifically, the following services shall be purchased:

During the period of this agreement, the Department will purchase from the Institution the following units of educational services:

The Department shall purchase, 34,726 weighted credit hours at two hundred and thirteen dollars (\$213) per credit hour for courses in Aerospace Science, Nursing, Engineering Technologies, Computer & Information Sciences, Biological & Life Sciences, and Physical Sciences for a total of seven million, three hundred ninety six thousand, and seven hundred thirteen (\$7,396,713).

In order to ensure that such services are provided in a reasonable and fiscally responsible manner, the Institution shall report annually, through the Student Unit Reporting Data System (SURDS), and the Final Student Enrollment Report, or by other means noticed and established by the Department, the number of student FTE served and credit hours provided by each

category listed in this exhibit. If such reporting shows an amount of credit hours lower than is purchased herein, the Department shall adjust the payments under this contract accordingly. Further, the Department may audit such services periodically to ensure contract and statutory compliance including, but not necessarily limited to ensuring that the number of credit hours purchased has been provided.

Nothing in this section shall prevent the Institution from enrolling students above and beyond the units contracted for under Other Educational Services.
