Fall 2019 and after: Note regarding HEAR and changes to the Admissions Standards Policy

Revisions to the Admissions Standards Policy take effect for students seeking admission beginning with Fall 2019. The Policy recognizes the importance of high school course rigor in preparing a student for college-level success and allows for different methods of demonstrating mastery in different subject areas:

- For seat-time-based programs, successful completion of the courses outlined in HEAR will be considered one demonstration of rigor;
- For competency-based programs, demonstration of mastery in all subject areas is highly recommended, with an emphasis on strong preparation in English and math.

Regardless of how mastery is measured, rigor also will include assessment of the level of difficulty relative to college preparation.

Since institutions and certain programs of study may have additional course rigor standards, students are strongly advised to verify institution-specific recommendations directly through the college/university.
