- Indicates school with fewer than five students enrolled in CO public higher education. Because results would be misleading, details of remediation not reported.

** Completer - a student who graduates or receives some type of completion certificate other than the local board-defined high school diploma.

**Recent high school graduate is defined as a degree- or non-degree-seeking first-time undergraduate reported with a graduation year equal to the academic year prior to the reporting year. When graduation year is missing, a student whose calculated age as of September 15 of the fiscal year is

17, 18, or 19 years. Totals for recent graduates here do not match those in other high school district tables due to deletion of high schools with small N size and non-public high schools.
