TUITION AND FEES REPORT **FISCAL YEAR 2010-11** DECEMBER 2010

1560 Broadway, Suite 1600 • Denver, Colorado 80202 • (303) 866-2723
D. RICO MUNN, EXECUTIVE DIRECTOR

Introduction

This report summarizes the tuition and fee rates Colorado public institutions of higher education charge to resident and nonresident students in FY10-11. While this report focuses on tuition and fee rates charged to undergraduate students, the attached summary tables provide greater detail and information for resident and nonresident rates as well as graduate and professional program rates.

In FY10-11, a footnote in the long bill (HB10-1376) limited the governing boards to nine percent tuition rate increases for resident undergraduate students. No limits were placed on rate increases for resident graduate students. Similar to prior years, there were no footnote limitations placed on governing boards' ability to raise nonresident tuition rates.

The full text of the tuition footnote is below:

Department of Higher Education, Governing Boards, Trustees of Adams State College; Trustees of Mesa State College; Trustees of Metropolitan State College of Denver; Trustees of Western State College; Board of Governors of the Colorado State University System; Trustees of Fort Lewis College; Regents of the University of Colorado; Trustees of the Colorado School of Mines; University of Northern Colorado; State Board for Community Colleges and Occupational Education State System Community Colleges – It is the intent of the General Assembly that no resident undergraduate student shall pay more tuition in FY 2010-11 than 9.0 percent over what they would have paid in FY 2009-10 for the same credit hours and course of study. It is the intent of the General Assembly that the institutions may increase all graduate and nonresident tuition rates to reflect market conditions and that any additional spending authority necessary to cover graduate and nonresident tuition rate increases will be addressed through a supplemental appropriation during the 2011 session.

In FY10-11, resident undergraduate rate increases ranged from a low of 7.1 percent for students at the University of Colorado at Colorado Springs while entering freshmen at Mesa State College who elected to enroll in 15 credit hours per term experienced an effective increase of 16.8 percent. Mesa State College raised their resident undergraduate tuition 9.0 percent in FY10-11; however, their governing board also eliminated their credit hour window for incoming freshmen students this year. Entering freshmen taking 1-14 or 16 or more credit hours at Mesa State College only experienced a 9.0 percent increase in FY10-11. The majority of institutions raised tuition rates 9.0 percent in FY10-11 for resident undergraduate students.

On the nonresident side, governing boards increased undergraduate rates from 0.0 percent at Fort Lewis College to 14.6 percent in FY10-11 at Mesa State College for entering freshmen (due to the elimination of the last credit hour in their tuition window). Although there were no limits on raising nonresident tuition rates in the long bill footnotes, there was debate during figure setting on whether to prohibit Fort Lewis College from raising nonresident tuition rates. This debate arose out of the economic downturn and the statutory requirement that the state cover the full tuition costs for Native American students at Fort Lewis College, meaning that about half the nonresident tuition revenue raised at the college is covered by the state. In the end, Fort Lewis College was not prohibited from raising tuition; however, their Board of Trustees recognized the potential impact that nonresident rate increases would have on the state budget and decided to hold nonresident tuition rates flat in FY10-11.

The first two tables present resident and nonresident undergraduate tuition and fees in FY10-11 compared to FY09-10. All calculations are based on a student taking 30 credit hours per year and

represent the student share of tuition. College Opportunity Fund stipends are not included in the tuition rates presented throughout this report. More comprehensive charts are included as an appendix to this report.

Notes:									
N/A denotes a year in which the stated differential no longer exists.									
Light shading denotes summary change information									
Medium shading denotes a year in which the stated differential did not exist, but the base or equivalent differential is provided as a proxy for comparison purposes.									
Dark shading denotes what CCHE & DHE consider to be the "Base Tuition Rate" when differentials exist

Note:									
* Continuing non-resident students at UCB do not pay annual tuition increases during their studies. The tuition reported is for the entering freshman class.									
N/A denotes a year in which the stated differential no longer exists.									
Light shading denotes summary change information.									
Medium shading denotes a year in which the stated differential did not exist, but the base or equivalent differential is provided as a proxy for comparison purposes.									
Dark shading denotes what CCHE & DHE consider to be the "Base Tuition Rate" when differentials exist.									

Senate Bill 10-003

During the 2010 legislative session, the General Assembly passed S.B. 10-003, *Concerning Higher Education Flexibility to Improve the Financial Position of State Institutions of Higher Education*. A central component of the legislation was the loosening of the prior restrictions on the governing boards' ability to increase tuition for resident undergraduate students. Instead of long bill footnotes determining tuition policy each year, governing boards are given statutory authority to raise tuition rates for resident undergraduate students up to 9.0 percent for five years from FY11-12 to FY15-16 under S.B. 10-003. Further, governing boards can gain the ability to raise resident undergraduate tuition by more than 9.0 percent if the Colorado Commission on Higher Education (CCHÉ) approves the governing board's Financial Accountability Plan. The Financial Accountability Plan was created to detail the level of tuition flexibility requested and strategies used to protect low and middle income students and the needs of underserved and underrepresented students during the period of tuition flexibility approved up to five years.

This legislation was in response to anticipated continued reductions in, or at best flat, state operating support for institutions of higher education allowing institutions the ability to generate more tuition revenue in lieu of increases in state support. In addition, the legislation provides governing boards the opportunity to reset their tuition levels (e.g., bringing rates closer to peer institutions in other states or to more market-based levels) and/or make fundamental pricing changes (e.g., close tuition windows or establish differential tuition rates for certain degree programs or courses) through a more transparent process. While some Colorado institutions of higher education have made these types of pricing modifications in the past, they have done so in a limited manner constrained by the tuition footnote limits included in the annual long appropriations bill. For example, Colorado State University closed their credit hour window from 9-18 credit hours to 10-18 credit hours in FY09-10, instead of raising tuition by the allowable 9.0 percent rate increase allowed through the long bill footnote.

The majority of this report focuses on tuition and fee rates, and the overall tuition structure at the institutions of higher education under the ten governing boards in the year prior to greater tuition flexibility granted under S.B. 10-003. It is hoped this report will serve as a reference and point of comparison as institutions use tuition flexibility over the next five fiscal years.

Tuition Footnotes and Corresponding Trends

Over the last five years (FY06-07 through FY10-11), resident undergraduate tuition rates have primarily increased by the rates allowed in the long bill footnotes each year. These rates specified in the long bill footnotes are summarized in the following chart.

Summary of Long Bill Footnotes					
	FY06-07	FY07-08*	FY08-09**	FY09-10***	FY10-11
Research Institutions - CU System, CSU System, UNC, CSM	2.5%	7.0%	9.5%	9.0%	9.0%
Four Year Institutions - ASC, FLC, MSC, MSCD, WSC	2.5%	5.0%	7.5%	9.0%	9.0%
Two Year Institutions - CCCS	2.5%	3.5%	5.5%	9.0%	9.0%
*Research and four year institutions were allowed to follow a revenue limitation in FY07-08 as opposed to a rate limit.					
**In addition to the rate limits shown here, FY08-09 footnotes allowed governing boards to increase tuition by up to \$5 per credit hour above the specific rate limit provided this increase was approved at a student election.					
***The governor vetoed the tuition footnote in FY09-10 but recommended governing boards stay within their spending authority which was based on 9.0% rate increases.					

Prior to FY09-10, there was generally a stricter limitation or a differentiation among the tiers in the footnote whereby the research institutions were allowed to raise tuition at a higher rate than the four year institutions. Likewise, the four year institutions were allowed to raise tuition at higher rates than the two year institutions. The footnotes described above were directed towards resident undergraduate tuition only. There were no limits placed on resident graduate and nonresident tuition in any of the fiscal years identified above.

The revenue limitation option in FY07-08 provided a great deal of flexibility to the research and four year institutions. Compared to a strict rate limit, the revenue limit allowed governing boards to raise tuition for some programs or student levels above the percent limit while holding some rates lower, thus staying within the overall revenue limit. Further, under the revenue limit, a governing board could make adjustments to their tuition window if desired. These types of adjustments are difficult to achieve under a strict rate limit. A good example of this type of action was the tuition policy action of Adams State College in FY07-08. Under the revenue limit, they reduced their tuition window from 10-17 credit hours in FY06-07 to 12-17 credit hours in FY07-08. Even though fulltime students saw an increase of 14.7 percent in that year, Adams State College structured their tuition policy so that overall revenue increased by only five percent. At the same time, their tuition window was now more in line with national norms and they had established a greater base upon which to build future tuition rate increases.

There are summary tables showing the five year history of tuition dollar and corresponding percentage increases from FY06-07 to FY10-11 included in the appendix of this report. As mentioned earlier, the rate increases implemented in each of the years largely align with the footnote percentage limits shown in the chart above.

Senate Bill 10-003 allows governing board greater flexibility to set tuition rates. In part this is done through the elimination of the establishment of tuition footnotes each year and the authority in statute for the governing boards to raise resident undergraduate tuition up to 9.0 percent through FY15-16. In each of the previous five years, both the footnote, and the policy expressed through the footnote varied significantly making long range planning a challenge. This fact, and how the governing boards adjusted to the footnote each year contributed greatly to the overall level tuition is set at across the various

institutions in FY10-11. For example, the revenue limit provided to the research and four year institutions in FY07-08 allowed a great deal of flexibility in setting overall tuition policy at that time. This level of flexibility had not been authorized the previous two years nor was it authorized in the following years. Through the Financial Accountability Plans, Senate Bill 10-003 will provide governing boards up to five years to make significant changes to their tuition rate structure and overall policy.

Since FY06-07, base resident undergraduate tuition rates have increased from about 29 percent to about 59 percent. For the sake of simplicity, only the base rates are shown in the chart below. The appendix to this report provides greater detail and trend data for differential tuition rates where they exist. What is clear from the chart below and the appendix is that the research and four year institutions have had greater authority and have taken advantage of this authority to raise tuition more significantly than community colleges.

Comparison of Resident Undergraduate Tuition Rates FY06-07 to FY10-11			
Institution	FY06-07 Resident Tuition (30 CHRS)	FY10-11 Resident Tuition (30 CHRS)	% Increase Resident Tuition FY06-07 to FY10-11
University of Colorado - Boulder			
All-Other	\$ 4,554	\$ 7,018	54.1%
University of Colorado - Colorado Springs			
Linear Freshman & Sophomore	\$ 4,066	\$ 6,270	54.2%
University of Colorado - Denver			
Lower Level	\$ 4,330	\$ 6,216	43.6%
Colorado State University			
Resident	\$ 3,466	\$ 5,256	51.6%

Colorado Community College System			
Resident	\$ 2,237	\$ 2,888	29.1%
NOTE:			
Gray shading denotes a year in which the stated differential did not exist, but the base or equivalent differential is provided as a proxy for comparison purposes.			

What is not shown in the chart is that state support to the governing boards has decreased significantly from a high point appropriation in FY08-09 of \$680.3 million. In fact, the overall funding level for higher education operating support requested in Governor Ritter's FY11-12 budget (\$534.3 million) is approximately the same amount allocated in FY05-06 and represents a 22 percent reduction over the

amount appropriated in FY08-09. In Colorado, tuition rate increases must be considered in the context of diminishing operating support from the state.

Tuition Differentials and Credit Hour Windows

Under S.B. 10-003, some governing boards may look to create or establish a greater number of differential tuition rates or close their credit hour windows. This section of the report summarizes which institutions currently have differentials and credit hour windows.

Differential tuition rates exist where higher rates are charged for specific programs of study or to various student levels. For example, an institution may charge higher tuition to students enrolled in the Engineering school or to students with junior and senior standing. The typical reasoning behind differential tuition is that these programs are more expensive to provide and therefore it is reasonable to expect students to pay more. Further, these programs may lead to higher salaries upon graduation.

Currently, differential tuition rates are charged to undergraduate students at institutions from five governing boards (CU System, CSU System, University of Northern Colorado, Mesa State College, and the Colorado Community College System). At the University of Colorado at Colorado Springs, the University of Colorado Denver, and Mesa State College, the differential is based on class standing. The other institutions with differentials charge higher tuition to specific programs or courses. Currently differential tuition rates are not charged at Adams State College, Fort Lewis College, Metropolitan State College of Denver, Western State College, and the Colorado School of Mines.

When an institution charges a flat rate for a range of credit hours, this is called a tuition or credit hour window. Most institutions have recently attempted to reduce the size or eliminate their credit hour window, thereby charging students for all credits hours taken. As of FY10-11, Mesa State College has eliminated their tuition window for incoming freshmen and is now fully using a linear tuition structure where each credit hour is charged the same rate.

Under strict tuition footnotes, closing a tuition window within the confines of a rate limit has proven difficult. Under tuition flexibility, it is expected that some governing boards will choose to make these changes. Of all the governing boards, only Metropolitan State College of Denver has actively established a tuition window recently – doing so in an effort to encourage students to take a greater credit hour load each semester. For the other institutions with tuition windows, they are increasingly a remnant of past practice.

The following chart summarizes the tuition structure for resident undergraduate students at institutions within the ten governing boards.

Summary of FY10-11 Tuition Windows	
Institution	Full Time Tuition Window
University of Colorado - Boulder	11 to 18 credit hours
University of Colorado - Colorado Springs	Linear
University of Colorado - Denver	12 to > 18 credit hours
Colorado State University	10 to 18 credit hours
Colorado State University - Pueblo	Linear with discounted credit hour above 12
Fort Lewis College	10 to 18 credit hours
University of Northern Colorado	12 to 16 credit hours
Adams State College	12 to 15 credit hours
Mesa State College	Linear for incoming freshmen
Metropolitan State College of Denver	12 to 18 credit hours
Western State College	12 to 18 credit hours
Colorado School of Mines	15 to 19 credit hours
Colorado Community College System	Linear

Peer Comparisons

In 2008, The National Center for Higher Education Management Systems (NCHEMS) funding study compared each Colorado institution of higher education to a set of national peers to determine their relative funding level (state and local support plus tuition revenue and fee revenue less discounts and allowances). This study was conducted prior to current downturn; therefore, no Federal stimulus dollars were included in the calculations. Given the varying degrees to which states used Federal stimulus dollars over the last three fiscal years, revisiting this peer revenue analysis may not be meaningful or provide an accurate comparison in the future. All data from the original study was pulled from the Integrated Postsecondary Education Data System (IPEDS). It is possible to pull tuition and fee rate information from IPEDS in addition to the revenue information used in the original peer funding study. The data shown in the charts below is the published FY09-10 tuition and fee rates for Colorado institutions compared to the peer average, as reported in IPEDS.

It is important to note that the IPEDS database lacks a clear definition in this field. Currently, it is not clear whether institutions report their base tuition rate or an average of differential rates. Further, it is not clear from this data how much tuition discounting occurs at the peer institutions. For example, the peer average may be skewed on the high side because peer tuition rates may be artificially high and heavily discounted through a strong financial aid program. With these caveats in mind, the NCHEMS peer set is a reasonable measure to see how tuition at Colorado institutions compares to comparable institutions nationally and will be an important tool to measure the impact of tuition flexibility over the next five years.

For the research and four year institutions, eight of the twelve institutions shown here have tuition and fee rates of at least 80% of their comparable average peer rates. Four of these institutions are below 80 percent of their peer average. These institutions are Colorado State University – Pueblo, Fort Lewis

College, Metropolitan State College of Denver, and Western State College. On the nonresident side, a majority of the institutions charge higher than average tuition and fees.

Colorado Institutions Compared to NCHEMS Peers - Research and Four Year Institutions				
Institutions	FY09-10 Published Resident Undergraduate Tuition and Fees	Percent of Peers	FY09-10 Published NonResident Undergraduate Tuition and Fees	Percent of Peers

Peer Tuition and Fees	\$7,101		\$15,573	

Colorado Community College System (CCCS) two year institutions range from 59 percent to about 110 percent of their peer average resident tuition and fee charges. On the nonresident side, most CCCS institutions charge significantly more than peers. The exceptions who charge less than their peer average in nonresident tuition and fees are Colorado Northwestern Community College, Otero Junior College, Lamar Community College, and Trinidad State Junior College. In an effort to attract additional

nonresident students, these border institutions reduced their nonresident tuition to be competitive with neighboring states.

Colorado Institutions Compared to NCHEMS Peers - CCCS

Revenue from Rate Increases

Policy makers, the media, and the general public tend to focus on tuition rate increases instead of the corresponding dollar increase associated with the rate change. Typically, rate increases are compared among the institutions. Also, institutions may be questioned when nonresident rates are increased at a lower percentage than resident rates.

The following chart shows how a one percent rate increase for resident and nonresident tuition would vary at each of the governing boards. In other words, the chart shows how much revenue is generated by governing board from one percent rate increases. As governing boards contemplate using tuition flexibility to backfill reductions in state support their ability to do so will be constrained by the amount of revenue generated. At the smaller institutions, a one percent tuition increase does not generate significant revenue when compared to larger research institutions. For example, Western State College generates just under \$53,000 from a one percent resident rate increase and about \$45,000 on the nonresident side. At the other extreme, the CU System will generate about \$3.5 million from a one percent resident rate increase across the system and \$3.1 million from a one percent increase in nonresident tuition.

Revenue Generated from One Percent Tuition Increases by Governing Board

Governing Board	FY10-11 Resident Tuition	Revenue from 1% Resident Tuition Increase	FY10-11 NonResident Tuition	Revenue form 1% NonResident Tuition Increase
Adams State College	7,919,836	79,198	4,472,464	44,725
Mesa State College	29,625,825	296,258	5,641,360	56,414
Metro State College	62,228,828	622,288	6,714,726	67,147
Western State College	5,291,719	52,917	4,508,821	45,088
CSU System	136,600,516	1,366,005	108,326,372	1,083,264
Fort Lewis College	8,624,857	86,249	20,123,087	201,231
CU System	351,864,510	3,518,645	314,531,299	3,145,313
Colorado School of Mines	38,835,915	388,359	36,980,845	369,808
University of Northern Colorado	50,769,853	507,699	17,564,598	175,646
CCCS	178,055,092	1,780,551	36,377,306	363,773

Especially at the institutions with high nonresident tuition rates, a one percent increase will generate significantly more revenue on per student basis than the same increase applied to the resident rate. As an example consider Fort Lewis College where a one percent resident rate increase will generate \$34 and a one percent nonresident rate increase will generate \$161 per student.

Over time Colorado institutions have been able to maximize the revenue generated from nonresident tuition rates and there is a belief that some institutions are at or near the maximum they can charge to out of state students. Large rate increases will probably not be applied to nonresident tuition at most institutions during the period of tuition flexibility granted in S.B. 10-003.

Student Fees

A student fee is a charge assessed against students by any institution of higher education, the revenues from which are used for academic or nonacademic purposes. In general, the Department compiles and reports **mandatory campus-wide fees**. These are fees that all students pay, regardless of their course of study, such as technology fees, capital fees, and student activity fees. It is important to note that institutions may also charge course and program-level fees, user fees, and charges for service.

Over the last five years, the trend in Colorado and across the nation has been an increase in cost for each fee category due to inflation, changes in costs associated, and declines in state support. The Department annually collects and reports on students fees with particular attention paid to Mandatory Fees. The table below outlines the five year change in mandatory fees at Colorado's public higher education institutions.

Five Year Trend in Undergraduate Mandatory Fees (30 Credit Hours Per Academic Year)			
* Includes mandatory fees paid by all students. Course & Program fees or charges-for-service are not listed.			
Institution	FY 2006-07 Student Fees	FY 2010-11 Student Fees	5 Year % Increase Fees
University of Colorado - Boulder	\$ 1,089	\$ 1,493	37.1%
University of Colorado - Colorado Springs	\$ 968	\$ 1,147	18.5%
University of Colorado - Denver	\$ 731	\$ 883	20.8%
Colorado State University	\$ 1,251	\$ 1,729	38.2%
Colorado State University - Pueblo	\$ 1,215	\$ 1,547	27.3%
Fort Lewis College	\$ 871	\$ 1,544	77.3%
University of Northern Colorado	\$ 674	\$ 1,317	95.4%
Adams State College	\$ 895	\$ 2,019	125.6%
Mesa State College	\$ 108	\$ 768	611.4%
Metropolitan State College of Denver	\$ 590	\$ 987	67.2%

Front Range Community College	\$ 277	\$ 296	6.9%
Lamar Community College	\$ 373	\$ 394	5.6%
Morgan Community College	\$ 161	\$ 171	5.9%
Northeastern Junior College	\$ 593	\$ 595	0.4%
Otero Junior College	\$ 172	\$ 206	19.7%
Pikes Peak Community College	\$ 156	\$ 269	72.4%
Pueblo Community College	\$ 223	\$ 511	129.0%
Red Rocks Community College	\$ 225	\$ 243	7.8%
Trinidad State Junior College	\$ 379	\$ 405	7.0%
NOTE:			
For FY09-10 the official CCHE policy on mandatory fees was amended with new definitions for mandatory fees.			

Several institutions stand out as having higher percentage increases, but in most cases this is directly correlated with the development of student approved Mandatory Fees for capital needs. Just as tuition increases should be considered in the context of diminished state support for institutions of higher education, the development of student fees for capital needs should be considered in the context of diminished state support for capital construction and controlled maintenance. Over the five year period ending in FY09-10, the state provided \$334.5 million for capital construction and controlled maintenance to institutions of higher education. Out year projections on available funding are bleak, with little to no state funding anticipated to be available for construction and maintenance.

The Commission's five-year capital needs projection (approved December 2010) seeks almost \$2 billion in state funds, while actual revenue forecasting for the state projects little to no money to be appropriated for capital over that same time frame. As the current economic downturn continues to delay capital construction, expectations are high that a significant backlog of capital projects will

develop. The anticipated result is that a majority of the burden will continue to be placed on the institutions to continue to fund these projects through cash sources such as student fees, cash reserves, private donations, and increasingly, through bonds funded by tuition revenue. More and more, students are being called upon to pay for capital projects.

Institutions have reluctantly pursued student capital construction fees as an alternative capital funding source. Institutions have sought and received student support on these capital fees. Presently, students at the Colorado School of Mines, University of Colorado at Boulder, Colorado State University, Colorado State University – Pueblo, Adams State College, Metropolitan State College of Denver, Western State College, Community College of Denver, and Pueblo Community College have voted to implement stand alone capital fees for current and future campus needs. Given the projected scarcity of state funds for higher education capital construction, institutions increasingly strain operating revenues and place a greater financial burden on students in order to build and maintain the facilities crucial to the future and functionality of the institutions.

Conclusion

Over the last five years, governing boards have structured tuition and fee policies around the limits granted through the long bill tuition footnotes and in the context of diminished state support. With the flexibility offered in S.B. 10-003, it is likely that governing boards will change some of their approaches around tuition and fees. These changes will come with greater transparency through financial accountability plans and CCHE oversight.

 Light shading denotes summary change information.
 Medium shading denotes a year in which the stated differential did not exist, but the base or equivalent differential is provided as a proxy for comparison purposes.
 Dark shading denotes what CCHE & DHE consider to be the "Base Tuition Rate" when differentials exist.

5 Year History of Resident Undergraduate Tuition Differentials (30 Credit Hours Per Academic Year)

Institution	FY 2006-07 Resident Tuition (30 CHRS)	FY 2007-08 Resident Tuition (30 CHRS)	FY 2008-09 Resident Tuition (30 CHRS)	FY 2009-10 Resident Tuition (30 CHRS)	FY 2010-11 Resident Tuition (30 CHRS)	5 Year % Increase Resident Tuition

NOTE:

Gray shading denotes a year in which the stated differential did not exist, but the base or equivalent differential is provided as a proxy for comparison purposes.
N/A denotes a year in which the stated tuition differential no longer exists.

1 = UNC categories include various programs in the following breakdowns:

- (1) = Education and Behavioral Sciences;
- (2) = Education and Behavioral Sciences; Humanities and Social Sciences; Natural and Health Sciences; Performing & Visual Arts;
- (3) = Natural and Health Sciences;
- (4) = Education and Behavioral Sciences;
- (5) = Education and Behavioral Sciences; Natural and Health Sciences;
- (6) = Natural and Health Sciences; Performing & Visual Arts

2 = MSCD began offering graduate courses in FY10-11

NOTE:

Gray shading denotes a year in which the stated differential did not exist, but the base or equivalent differential is provided as a proxy for comparison purposes.

N/A denotes a year in which the stated tuition differential no longer exists.

1 = UNC categories include various programs in the following breakdowns:

- (1) = Education and Behavioral Sciences;
- (2) = Education and Behavioral Sciences; Humanities and Social Sciences; Natural and Health Sciences; Performing & Visual Arts;
- (3) = Natural and Health Sciences; Performing & Visual Arts
- (4) = Education and Behavioral Sciences;
- (5) = Education and Behavioral Sciences; Natural and Health Sciences;
- (6) = Natural and Health Sciences; Performing & Visual Arts

2 = MSCD began offering graduate courses in FY10-11
