TUITION AND FEES REPORT **FISCAL YEAR 2012-13** JANUARY 2013

1560 Broadway, Suite 1600 • Denver, Colorado 80202 • (303) 866-2723
LT. GOV. JOSEPH A. GARCIA, EXECUTIVE DIRECTOR

Introduction

This report summarizes the tuition and fee rates Colorado public institutions of higher education charged to resident and non-resident students in FY 2012-13 and serves to keep in compliance with C.R.S. § 23-1-105.5(2). The report highlights tuition and fee rates charged to resident undergraduate students but the attached summary tables provide greater detail and information for resident and non-resident rates as well as graduate and professional program rates.

FY 2012-13 resident undergraduate rate increases ranged from a low of 0.0 percent for students at Aims Community College, to a high of 19.6 percent at Colorado State University-Pueblo. The majority of institutions raised resident undergraduate tuition rates between 5.0 and 15.0 percent.

For non-resident students governing boards increased FY 2012-13 undergraduate rates from 0.0 percent at Fort Lewis College to 9.4 percent at the University of Colorado Denver.

Base Tuition Increases Over Five Years

Since FY 2008-09, base resident undergraduate tuition increases have varied across public institutions. The following chart illustrates the increase in base tuition rates for the last five years. The appendix to this report provides greater detail and trend data for differential tuition rates where they exist.

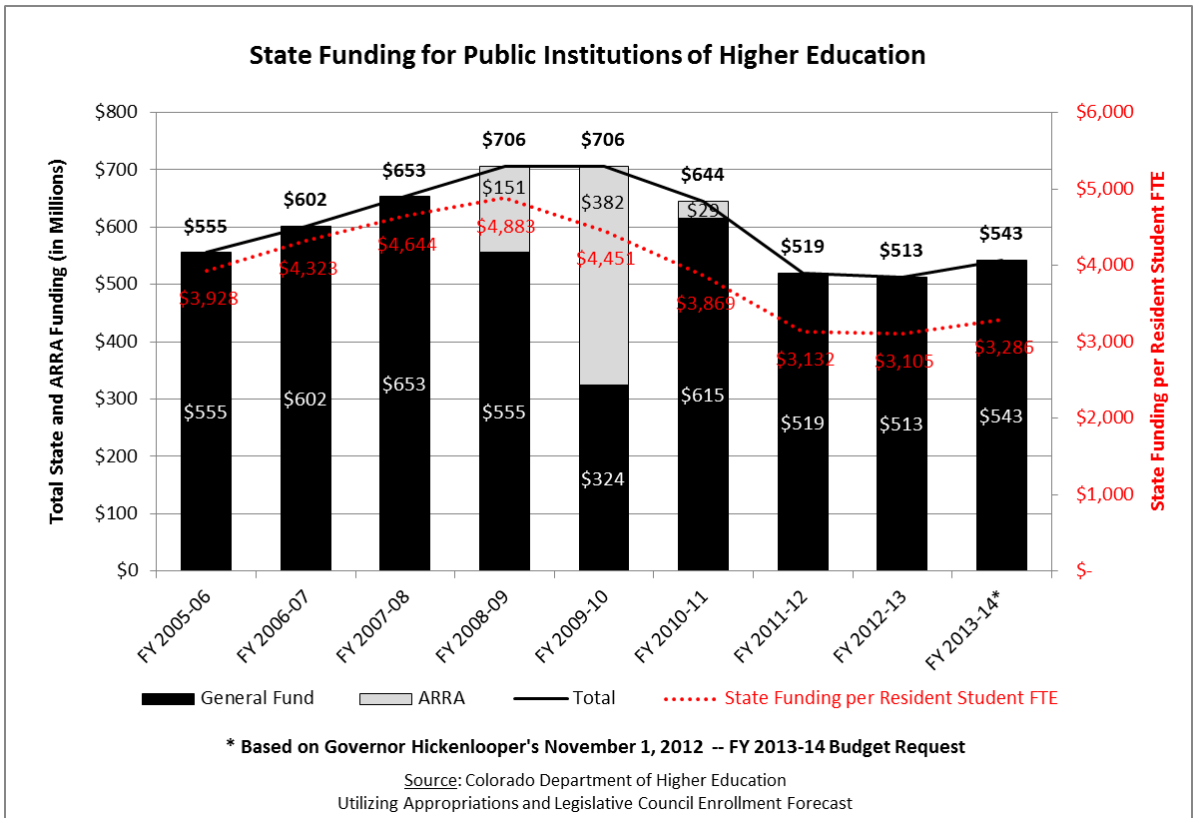

Table 1
Comparison of Resident Undergraduate Tuition Rates FY 2008-09 to FY 2012-13

Institution	FY 2008-09 Resident Tuition (30 CHRS)	FY 2012-13 Resident Tuition (30 CHRS)	5 Year % Increase Resident Tuition
University of Colorado - Boulder	\$5,922	\$8,056	36.0%
University of Colorado - Colorado Springs	\$5,580	\$7,050	26.3%
University of Colorado - Denver	\$5,484	\$7,980	45.5%
Colorado State University	\$4,424	\$6,875	55.4%
Colorado State University - Pueblo	\$3,422	\$5,494	60.5%
Fort Lewis College	\$2,846	\$4,800	68.7%
University of Northern Colorado	\$3,942	\$5,464	38.6%
Adams State University	\$2,496	\$3,816	52.9%
Colorado Mesa University	\$4,325	\$6,102	41.1%
Metropolitan State University of Denver	\$2,615	\$4,304	65.6%
Western State Colorado University	\$2,880	\$4,627	60.7%
Colorado School of Mines	\$9,810	\$13,590	38.5%
Colorado Community College System	\$2,430	\$3,383	39.2%
Aims Community College	\$1,650	\$2,021	22.5%
Colorado Mountain College	\$1,350	\$1,680	24.4%

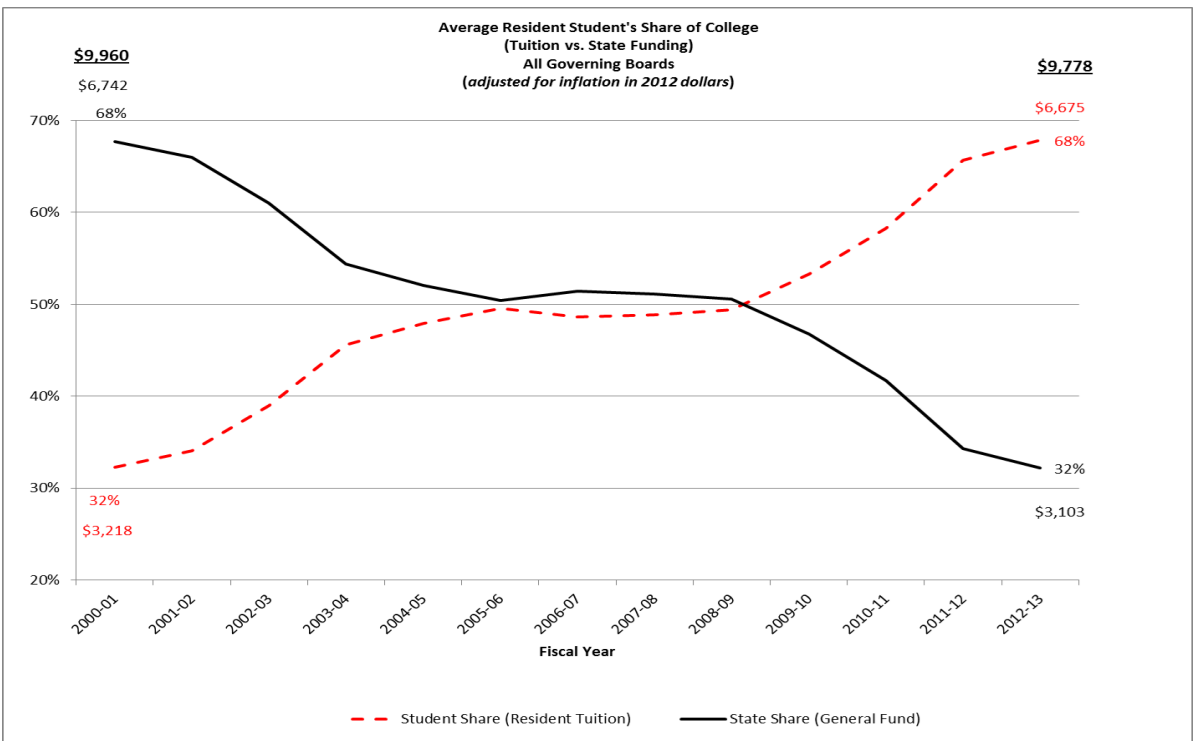

Base tuition increases need to be considered in light of significant decreases in state operating support. Since FY 2009-10, state operating funding has decreased by \$193 million or over 27% from a high point of \$706 million. Graph 1 (below) depicts the trend in state funding for public institutions from FY 2005-06 through FY 2012-13. It is important to note however, that for FY 2013-14, the Governor's Office is requesting an increase of \$30 million for Colorado's public higher education system which would raise

the level of state funding to \$543 million. Graph 2 demonstrates the reduction in the state share of higher education funding versus student share of funding over ten years.

Graph 1

Graph 2

Tuition Flexibility

In 2010 the General Assembly passed Senate Bill 10-003, *Concerning Higher Education Flexibility to Improve the Financial Position of State Institutions of Higher Education*. The legislation created a five-year window of tuition setting flexibility for higher education governing boards in light of reduced state funding. Under S.B. 10-003 governing boards are given the authority to raise tuition rates for resident undergraduate students up to 9.0 percent for five years from FY 2011-12 to FY 2015-16. Governing boards are allowed to increase resident undergraduate tuition above 9.0 percent if a Financial Accountability Plan is submitted to and approved by the Colorado Commission on Higher Education. Nine of the ten governing boards currently have Financial Accountability Plans approved by the Colorado Commission on Higher Education (Commission). The Colorado School of Mines opted not to submit a plan and has been limited to tuition increases of 9.0 percent.

The Financial Accountability Plans detail the level of tuition flexibility requested and outline governing board strategies designed to protect low and middle income students and the needs of underserved and underrepresented students during the period of tuition flexibility. During the tuition flexibility period set out in S.B. 10-003 tuition spending authority is not appropriated by the General Assembly but tuition revenue estimates are provided in the annual budget bill (Long Bill) for informational purposes.

Greater tuition flexibility was offered in response to continued reductions in state operating support for institutions of higher education during a time of increasing enrollments. Tuition flexibility has allowed institutions to better plan for the future in light of economic uncertainty, meet operating needs, and increase institutional financial aid support. Institutions also have the ability to make pricing decisions based upon factors like their role mission and market. They also have the flexibility to establish differential tuition rates for more expensive degree programs or courses and encourage completion by adjusting the “tuition window”, described in greater detail below.

Tuition Setting

Governing boards determine what will be charged for tuition at the institutions they govern within the prescribed limits approved in the Financial Accountability Plan (or previously by Long Bill footnote). This usually occurs in the spring and early summer to allow incoming and returning students to make decisions and plan for the upcoming year. Tuition rate increases can be confusing as the actual dollar impact of the tuition increase varies from student to student and depends on a number of factors such as the student’s selected area of study and eligibility for financial aid.

Tuition rate setting is only one part of the price determination process, which includes a variety of factors that depend on the pricing strategy at the particular institution. Tuition setting tools include charging more per credit hour for more expensive programs like engineering or nursing (known as tuition differentials), and charging a flat rate over a range of credit hours (known as a “tuition window”) to encourage students to take more than a certain number of credit hours. In other cases, institutions use a linear tuition structure and charge the same amount per credit hour regardless of the number of hours taken. While tuition is a central part of an overall pricing strategy at an institution, the final price to attend will also include factors such as room, board and fees, and the availability of financial aid – both grants and loans.

Base Tuition and Fee One-Year Increases

The next two tables present resident and non-resident base undergraduate tuition and fees in FY 2011-12 compared to FY 2012-13. All calculations are based on a student taking 30 credit hours per year and do not include College Opportunity Fund (COF) stipend amounts. More comprehensive charts are included as an appendix to this report.

¹ Categories shown are what CCH & DHE consider to be the "Base Tuition Rate" when differentials exist. See Appendix for differential tuition and fees data.

² Continuing non-resident students at UCB do not pay annual tuition increases during their studies. The tuition reported is for the entering freshman class.

Increases in Institutional Financial Assistance

As discussed above, tuition flexibility was implemented in part to help institutions deal with reductions in state support and close operational funding gaps. Institutions also use tuition revenue to increase financial assistance to low and middle income students and to enhance retention and completion strategies. Table 4 below shows the increases in institutional aid provided in recent years.

Table 4
Five-year Increase in Institutional Financial Aid and Tuition by Institution¹

Institution	FY 2008-09 Institutional Assistance	FY 2012-13 Institutional Assistance	5 Year % Increase Institutional Assistance	5-Year % Increase Resident Tuition

¹ Data pulled from SURDS financial aid files (2008-09 to 2012-13) and includes all aid paid by institutions (no filters).

Tuition Differentials and Credit Hour Windows

Differential tuition rates exist where higher rates are charged for specific programs of study or depending on the level of program completion. For example, an institution may charge higher tuition to students enrolled in the Engineering program or to upper-class students with junior and senior standing. The rationale for differential tuition is that these programs can be more expensive for institutions to provide and typically have smaller class sizes. Higher cost programs frequently correlate to higher salaries upon graduation, thereby making it more feasible that these students will re-coup instructional costs.

Currently, differential tuition rates are charged to undergraduate students at institutions from six governing boards and the Local District Colleges (University of Colorado System, Colorado State University System, University of Northern Colorado, Adams State University, Colorado Mesa University, the Colorado Community College System, Aims Community College, and Colorado Mountain College). At the University of Colorado at Colorado Springs, the University of Colorado Denver, Colorado Mesa

University, Aims Community College and Colorado Mountain College, the differential is based on class standing with upper class students paying more. The other institutions with differentials charge higher tuition to specific programs or courses. Currently differential tuition rates are not charged at Fort Lewis College, Metropolitan State University of Denver, Western State Colorado University, and the Colorado School of Mines.

When an institution charges a flat rate for a range of credit hours, this is called a tuition or credit hour window. Institutions, through their governing boards, may choose to utilize or reduce windows over time to better align themselves with market conditions, peer institutions, and recruiting practices. Access institutions such as Metropolitan State University of Denver have recently established or maintained a tuition window in an effort to encourage students to take a greater credit hour load each semester.

The following chart (Table 5) summarizes the tuition structure for resident undergraduate students at institutions within the ten governing boards.

**Table 5
Summary of FY 2011-12 Tuition Windows**

Institution	Full Time Tuition Window
University of Colorado - Boulder	12 to 18 credit hours
University of Colorado - Colorado Springs	Linear
University of Colorado - Denver	12 to 18 credit hours
Colorado State University	12 to 20 credit hours
Colorado State University - Pueblo	Linear with discounted credit hour between 14-18 credits
Fort Lewis College	12 to 18 credit hours
University of Northern Colorado	13 to 16 credit hours
Adams State University	12 to 20 credit hours
Colorado Mesa University	Linear
Metropolitan State University of Denver	12 to 18 credit hours
Western State Colorado University	12 to 18 credit hours
Colorado School of Mines	15 to 19 credit hours
Colorado Community College System	Linear

Revenue Generated from Tuition Rate Increases

Public discussions of tuition increases often focus on tuition rate increases year over year. It is also important to consider the corresponding dollar increase associated with the change in tuition rate.

The following chart (Table 6) shows the impact of a one percent rate increase for resident and non-resident tuition by student FTE. The chart shows how much revenue is generated per student FTE from a one percent increase on the base tuition rate. This illustrates that institutions have differing capabilities to use tuition flexibility to backfill reductions in state support.

Table 6
Comparison of 1% Tuition Rate Increase (Per Student)

Governing Board	FY 2012-13 Resident Tuition	Revenue from 1% Resident Tuition Increase	FY 2012-13 Non-Resident Tuition	Revenue from 1% Non-Resident Tuition Increase
University of Colorado - Boulder	\$8,056	\$81	\$29,952	\$300
University of Colorado - Colorado Springs	\$7,050	\$71	\$16,720	\$167

Institutions with high non-resident tuition rates will generate significantly more revenue from a one percent increase on per student basis than the same increase applied to the resident rate. For example, at Adams State University, a one percent resident rate increase will generate \$38 per student and a one percent non-resident rate increase will generate \$148 per student.

A per student analysis considers the impact to students; however, governing boards are tasked with determining revenues for their institutions. Table 7 presents the approximate amount of revenue generated from a 1 percent tuition increase on resident and non-resident tuition revenue. At smaller institutions, a one percent tuition increase does not generate significant revenue when compared to larger research institutions. For example, Western State Colorado University generates roughly \$61,000 from a one percent resident rate increase and about \$66,000 on the non-resident side while the University of Colorado Boulder will generate about \$1.2 million from a one percent resident rate increase across the system and \$2.5 million from a one percent increase in non-resident tuition.

Table 7

Estimated Revenue Raised by 1% Increase in Tuition by Institution¹

Governing Board	Total FY 2012-13 Resident Tuition Revenue	Total Revenue from 1% Resident Tuition Increase	Total FY 2012-13 Non-Resident Tuition	Total Revenue from 1% Non-Resident Tuition Increase

¹ Data based on 2012 fall term FTE (SURDS) and 2012-13 tuition

Over time Colorado institutions have optimized revenue generated from non-resident tuition rates and some institutions are considered to be at or near the maximum amount that can be charged to out-of-state students.

Student Fees

A student fee is a charge assessed against students by any institution of higher education, the revenues from which are used for academic or nonacademic purposes. In general, the Department compiles and reports **mandatory campus-wide fees**. These are fees that all students pay, regardless of their course of study, such as technology fees, capital fees, and student activity fees. It is important to note that institutions may also charge course and program-level fees, user fees, and charges for service. For more detailed information see individual institution fee plans available on institution websites and at the Department website at <http://higher.ed.colorado.gov/Finance/Fees/default.html>.¹

Over the last five years, the trend in Colorado and across the nation has been an increase in cost for each fee category due to inflation, changes in costs associated, and declines in state support. The Department annually collects and reports on students fees with particular attention paid to mandatory fees. The table below outlines the five year change in mandatory fees at Colorado’s public higher education institutions.

¹ Data includes mandatory fees paid by all enrolled students. Course & program fees are not listed.			

Several institutions stand out as having higher percentage increases, but in most cases this is directly correlated with the development of student approved fees dedicated to capital construction. Just as tuition increases should be considered in the context of diminished state support for institutions of higher education, the development of student fees for capital needs should be considered in the context of diminished state support for capital construction and controlled maintenance. Graph 3 below shows that over the past five years, the state has drastically reduced capital construction and controlled maintenance allocations to institutions of higher education.

Graph 3
History of State-Funded Higher Education Capital Construction

The Commission’s five-year capital needs projection (approved December 2012) seeks about \$1.5 billion in state funds, while actual revenue forecasting for the state projects significantly less money to be appropriated for capital over that same time frame. The need to update or expand facilities continues even when state dollars are unavailable. The result is that a majority of the burden will continue to be placed on the institutions to continue to fund these projects through cash sources such as student fees, cash reserves, private donations, and increasingly, through bonds funded by tuition revenue. In these cases the fees have to be approved by the student body or by the student government representing the student body.

Further Information

The Appendix provides detailed tables on current tuition and fees for undergraduate and graduate students classified as both resident and non-resident.

All tables provided in Appendix A are also available on the Department of Higher Education website at: <http://highered.colorado.gov/i3/Reports.aspx?cat=8>

Note:

* Continuing non-resident students at UCB do not pay annual tuition increases during their studies. The tuition reported is for the entering freshman class.

N/A denotes a year in which the stated differential no longer exists.

Light shading denotes summary change information

Medium shading denotes a year in which the stated differential did not exist, but the base or equivalent differential is provided as a proxy for comparison purposes.

Dark shading denotes what CCHE & DHE consider to be the "Base Tuition Rate" when differentials exist

Colorado Mountain College began offering upper division courses in FY11-12

NOTE:
Gray shading denotes a year in which the stated differential did not exist, but the base or equivalent differential is provided as a proxy for comparison purpose
N/A denotes a year in which the stated tuition differential no longer exists.
1 = UNC graduate degree programs listed are examples
2 = MSCD began offering graduate courses in FY10-11
3 = ASU's Teacher Education program became online only and the same cost for residential and non-residential students in 2012-13
