

As required in C.R.S. 23-5-127.4, every postsecondary institution in Colorado must provide each enrolled student with a unique identifier. Beginning in the academic year 2009-2010, the state assigned student identification (SASID) was collected in SURDS. This new collection bridges the data between high school graduates and their enrollment into higher education.

Enrollments include 28 Colorado public institutions and 3 private institutions that participate in the College Opportunity Fund (COF). In Fall 2009, 47.6% of public high school graduates enrolled in a public higher education institution in Colorado. Of the recent high school graduates who enrolled in a public Colorado institution, approximately 65% enrolled in a four-year institution and 33% enrolled at a two-year college. A summary of public college enrollment in Colorado is presented below. A breakdown of college enrollment by high school and public postsecondary institution also follows.
