Introduction

This report fulfills the requirements stipulated in §25-5-113.5 and created from House Bill 22-1049. The reporting requirements are described below:

Beginning July 1, 2024, each postsecondary institution shall annually report to the Department of Higher Education (Department) concerning transcript and registration holds, including:

- The postsecondary institution's policy regarding holds;
- The number of students for whom the postsecondary institution is withholding official transcripts, diplomas, and registration privileges; and
- The number of past-due student accounts assigned to third-party collection agencies, including the number of students who are eligible for federal Pell grants.

Beginning January 2025, and each January thereafter, the Department shall annually report on the information reported by the institutions at the department's annual State Measurement for Accountable, Responsive, and Transparent (SMART) Government Act hearing.

While the statute allows institutions to withhold transcripts and diplomas from current and former students who owe a debt for tuition, room and board and financial aid funds, it also provides rules which prevent institutions from withholding these college documents. These rules include that institutions shall not refuse transcripts and diplomas for students who owe a debt for expenses that are not tuition, room and board fees or financial funds. Further, the college documents shall not be withheld if the student can demonstrate that they are needed for one of the following reasons:

- A job application;
- Transferring to another institution of higher education;
- Applying for state, federal, or institutional financial aid;
- Pursuit of opportunities in the military or national guard; or
- Pursuit of other postsecondary opportunities.

Finally, institutions are directed to create and post a policy on their websites detailing transcript and diploma holds information to students. Links to these policies are included in this report, as are institutional notes, when relevant, regarding their policy as well as the data provided to the Department.

Is it general debt that impacted services in the 23/24 academic year? Or is it debt incurred in the 23/24 academic year? Thus I gave more numbers than needed. Could we get more clarification next year? Not sure if other schools interpreted the question the same, so may get varying data with this current submission.

Manna University	Manna University 2024-2025 Undergraduate Academic Catalog	2	0	0	Two students had outstanding debt and failed to pay their balance after years of trying. They requested transcripts before the law changed and were told they had to pay off their balance before it would be released. We have changed our policy regarding this practice to align with the federal government's new rule and no longer hold transcripts for outstanding balances. This was all done before the policy change and was early last academic year.

Regis University	Regis University Transcript/Diploma Financial Hold Exemption Policy	392	217	17	For the academic year 2023-24 we have held 63 diplomas. We currently have 4 active transcript requests on hold. We typically hold roughly 5-10 transcripts a week, but the vast majority are released due to the new law, or the student resolves their holds and the transcript is released. Regarding registration holds for the academic year 2023-2024 we currently have a total of 325. We found 17 students that were Pell eligible for the 2023-24 academic year. 12 students that actually received Pell for the that year and 5 more students that were Pell eligible and had Pell entitlements for 2023-24, but did not end up receiving Pell for a variety of reasons.

Rocky Mountain College of Art + Design	RMCAD Department of Financial Aid and Student Accounts webpage	106	365	262	RMCAD does not withhold transcripts or diplomas due to student debt. For the summer 2023, fall 2023 and spring 2024 terms, RMCAD withheld registration privileges due to student debt for 106 students. Before placing students on a registration hold, RMCAD's Student Accounts Department will reach out to students via phone, email and text to ensure students are aware of the balance owed and, if needed, provide payment plan options to help students manage their debt. If students are experiencing a financial hardship, they will be connected with the Financial Aid Department to assist them with exploring potential financial assistance options. RMCAD does not refer active students to a third party for collections and has a staff member dedicated to working with alumni and graduates on payment plan options before their debt is referred to a third-party collections agency. RMCAD and its third-party agency do not report debt or collections activities to any of the credit bureaus so they do not impact a student's credit score.
