**II. Budget/ Legislative update-** Chad Marturano

**III. Master Planning update**

a. Currently, the CCHE is considering the following draft goals:

*1. Increase degree attainment across Colorado in order to meet future workforce demands. The objective of this goal is to identify projected workforce demand, net of the in-migration of talent to the state, which could be used to both benchmark the state's needs and evaluate future progress.*

*2. Close gaps in degree attainment among students from traditionally underserved communities, in particular, Latinos, students from rural communities, and students from lower socioeconomic households.*

*3. Improve outcomes in remedial education by successfully aligning the state's postsecondary admission and remedial policies with the state's K-12 system, by assisting the state's school districts in identifying and addressing students' developmental needs before graduating from high school, and by scaling up successful innovations in remedial/developmental placement and instruction.*

*4. Pursue public funding that will allow public institutions of higher education to meet projected enrollment demands while maintaining current productivity efficiencies. In addition, pursue public funding to lower the burden on students by achieving a mix of revenues that equals 50 percent state funds and 50 percent tuition and fees. Importantly, while remaining very mindful of the current fiscal conditions in the state and on public campuses, the Commission noted that the potential inability of the state to meet this goal in the near term should not invalidate the previous three goals. In other words, the CCHE argued that each of the goals should be treated as independent of one another.*
