1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds that:

4 (a) Colorado is committed to keeping the cost of attending college
5 affordable for resident students at Colorado's research institutions of
6 higher education;

7 (b) Tuition revenue from nonresident students improves the
8 affordability and quality of education for Colorado's resident students;

9 (c) Educating resident students is the paramount role of all of
10 Colorado's public institutions of higher education;

11 (d) Colorado's research institutions will continue to be required by
12 law to admit all qualified resident students who apply to their institutions;

13 (e) Accepting additional qualified nonresident and international
14 students will have no impact on the ability of research institutions to
15 accept qualified resident students;

16 (f) Resident enrollment growth and the number of Colorado high
17 school graduates is projected to fluctuate, peak, and decline in the future,
18 causing some public research institutions of higher education to turn away
19 nonresident students who help subsidize costs and improve college

1 affordability for resident students because of the current formula; and
2 (g) International students greatly add to the cultural and
3 intellectual diversity on research campuses.

4 (2) Therefore, the general assembly declares that changes to
5 admissions percentages relating to nonresident and international students
6 is beneficial for the financial stability of Colorado's research institutions
7 and improves college affordability for resident students.
